*Fighting for the Freedom Of England*

## A Call to Action to All True-hearted English People

1. The sovereignty of England is absolute and non-negotiable.
2. The English people have the sole and indisputable right to own, use, develop, control, and occupy the territory of England.
3. The supremacy of our Common Law and Constitution is reaffirmed.
4. Our ancestors found hope, purpose and strength in the spirituality and moral teachings of Christian faith. We shall fight to defend that Faith.
5. Statutes of an unlawful Parliament are the instruments of State treason. To refuse to challenge such statutes is a crime of 'misprision in treason'.
6. Those engaged in treason will be punished according to the Law.
7. Those conspiring to destroy the English are making war on the English. It is a Lawful Duty to fight that destruction.
